CONVENTION OPENED

IN THE PRESBYTERIAN CHURCH.

Sabbath School workers from many points in Alberta meet to discuss themes of interest.

There was a good attendance at the opening session of the Sabbath school convention in the Presbyterian church last evening. Rev. C. H. MacKenzie presided. The devotional exercises were conducted by Rev. A. H. Hager. The choir of the church led in a service of song, at the conclusion of which the program as arranged was carried out.

Mayor K. W. MacKenzie welcomed the delegates on behalf of the citizens of Edmonton, and the Sunday school was an organization which has a great deal to do with the building up and strengthening of national life.

Mr. W. Ramsay, principal of the city public schools, extended a welcome on behalf of the public schools. He eulogized the work of the Sunday school teacher as being second in importance to none.

Rev. Dr. McQueen welcomed the delegates to Edmonton, the churches of Alberta, on behalf of the churches of the city. He spoke of the work being done in the Sunday schools as being voluntary on the side of the workers and urged them not to be discouraged if they did not see as great results as they would like to see.

Rev. E. Michener, mayor of Red Deer, returned to the address of welcome, as speaker of the great advancement of Alberta, in material things and was glad to note that the church and Sunday school were keeping pace with the advancement. A great deal depended upon the Sunday school teacher as to the character of the future generation of the new land. "We have a good climate, good soil, almost unlimited resources and as much manhood and brain to the square mile as any country in the world." He urged all to work so that it might be said of them at the close of life "He hath done what he could."

The president's annual address was delivered by Rev. C. H. Heustis. The most striking thing in this address, he said, was the interest being taken in the child. In the Sunday school work there were 3 keynotes to be kept in mind always—Organization, education and evangelization. There might be too many organizations, but there could not be too much organization. Have class, school, district and provincial organization. All education should be co-ordinated. The same grades as are observed in the public schools should be used in the Sunday school. The end of all Sunday school work is to bring the child into living touch with the Christ. He hoped that Alberta would have the banner Sunday school organization in America, not necessarily in numbers, but in the quality of the work done. He also hoped that Alberta would have the banner teacher training course in America. Rev. H. A. Gray closed the services. Sessions have been continued during the day and will be continued tomorrow.

ROBBED HIS BENEFACTOR.

Port William, April 26.—One hour after having been gotten out of jail by a chance acquaintance, George Lachant of Montreal today robbed his benefactor of \$100. After leaving Lachant's fine, Arthur Carson left his bank book with the proprietor of a store. Shortly afterward Lachant called at the store and demanded the book, saying Carson had sent for it. At the bank he forged Carson's signature and secured \$100. Lachant was taken into custody shortly after noon. He does not deny having committed the crime.

LIBERALS CHEERED

THE NEWS FROM EDMONTON.

Member from Three Rivers asks Mr. McLean why he did not stand by his challenge.

Bulletin Special.

Ottawa, April 26th.—During his speech in the House today Mr. Bureau of "Three Rivers" said that he had just heard Hon. F. Oliver had been elected by acclamation in Edmonton which was received by the Liberals with cheers. Mr. Bureau wanted those members of the Opposition which were defying the Government to open a constituency to explain and asked Mr. Macken of "South York" why he did not stand by his challenge. Mr. McLean replied that he was willing to run in an Ontario constituency. Mr. Bureau answered that would be like him "Bureau" inviting Macken down to Three Rivers. That was not his style of fighting. They should keep to the ring which was in this case the North West. It was a North West question and the North West should decide it.

Broder of "Dundas" and Whip Taylor opposed the bill and Parmelee of "Shelburne" supported it. Heron of "Alberta" said the people of the West were more interested in lands and minerals than schools.

WEDNESDAY, APRIL 26th, 1905

TO THE ELECTORS OF EDMONTON,

Gentlemen:—
Having been re-elected by acclamation as member for Edmonton, on assuming the portfolio of the Interior, I desire to express my personal appreciation of the action of the electors. I hope that I may be able to deserve this very strong expression of confidence, given without distinction of party, race, religion or locality.

Respectfully yours,
FRANK OLIVER.

ARCHBISHOP LANGEVIN DENOUNCES SCHOOL CAUSE.

Free Press of April 22nd—The North West Review, the organ of the Roman Catholic clergy, in its current issue, has the following:

The following momentous pronouncement occurs in the recently published circular to the clergy by his grace the Archbishop of St. Boniface:

"Just as we are committing to the press this circular, we learn with unspeakable sorrow that the educational clause destined to be inserted in the Autonomy Bill of the two new provinces of Alberta and Saskatchewan will not restore to us the position we held in 1875, when the North West territories were organized in virtue of the British North America Act, but that this clause will consecrate the spoliation of our school rights by the ordinance of 1892, and will sanction all the ordinances passed up to 1901.

"This is for us a cruel disappointment and the source of great sadness and grave anxiety for the future.

"It is all over the spoliation of 1892 will thus be definitely confirmed and consecrated, and we lose all hope of recovering our rights, we who expected this act of justice and high wisdom, as well as the true patriotism, from our rulers at Ottawa.

"In 1875 we had the same school rights as the Protestant minority of Quebec and the Catholic minority of Ontario, and these rights shamefully violated, in spite of the constitution, as the lamented Archbishop Tache so well proved in his memorial of 1894, will not be recognized and restored to us, as we had reason to expect, by a Parliament which has the power to do so.

"Catholics who express their satisfaction at such a state of things betray not only unpardonable ignorance of Catholic educational principles but lack of understanding of the painful position in which we are placed since 1892, ostracized, as we truly are, in the Territories.

"Wherefore, reverend and dear brethren, we deem it our duty to lift up our voice in protest against this ignoring of our school rights which the constitution of our country gives us.

"We have a right to separate and Catholic schools in the Territories and we loudly and insistently demand the reorganization and protection of this right in the organization of the new provinces.

"We invoke the Federal compact so so acted for the citizens of Canada, we invoke the solemn promises made to the great peace-maker of 1870, our illustrious and lamented predecessor, Monseigneur Tache, in the name of Her Britannic Majesty. By Her Majesty's authority, I assure you that after your union with Canada, all your civil and religious rights and privileges shall be respected." (Governor-General's Memorial, p. 33) When declaring the desire and determination of the British Cabinet, you may, in all security, make use of the ancient formula: 'Right will prevail in every case.' (Ibid, p. 35.)

"This right officially recognized in 1870, we claim in the name of good faith, conscience and natural equity, as well as in the name of the constitution of Canada, and above all in the name of the Law of Nations.

"Our rights are as sacred and as certain today as they were in 1875. And if some opportunists were tempted to ask us to be silent for the sake or because it is impossible now to recover our rights, we would answer: 'There can be no peace except with justice. There can be no prescription against right. No question of principle is truly settled except when it is settled according to justice and equity. Our cause is that of justice and peace, because it is the cause of conscience and truth, and truth, like God, never dies.'

W. Whyte, Winnipeg, second vice president of the C. P. R., has been talking to a Montreal newspaper man and is credited with the following paragraph:

"Speaking of the relative merits of Calgary and Edmonton as towns Mr. Whyte is inclined to believe that the former will hold its own for a good many years to come. The advent of the G. T. P. to Edmonton may do something towards enabling the price of real estate, which is now abnormally high, to be maintained in Edmonton, but he is not at all sure on this point. Indeed, Mr. Whyte is fain to believe that lines running north and south are of more benefit to a town situated as Edmonton is, than those running east and west. Edmonton is the centre of a vast dairying district, and the products of the surrounding country are shipped to the mining camps of British Columbia, the Yukon and the Orient. For these products Calgary is the distributing point so far as British Columbia is concerned, which gives it an advantage over its rival."

"This, of course, is pie for the Calgary Herald, which whoops its merment in this way:

"The remarks of Vice-President W. Whyte to a Montreal Star representative concerning the west, published elsewhere in the Herald, show a critical knowledge of relative conditions prevailing in the Territorial metropolis, and the temporary capital. He alludes to the fact that the price of real estate at Edmonton, kept up by the senseless boom has prevented the investment of householders' money, whereas in and around Calgary, the price has never been permitted to reach prohibitive proportions. Again, he mentions the substantial growth and metropolitan pretensions of Calgary, and asserts his belief in the permanent prosperity of this city, adding that Edmonton can scarcely hope, in the ordinary nature of things, to approach its great southern commercial rival."

VOTE OF CONFIDENCE.

St. Albert, April 23, 1905.

We, the German Society of St. Albert and Morinville, wish to record with great satisfaction that we have the fullest confidence in the policy and administration of the Government of Sir Wilfrid Laurier and also of the appointment of our honorable member of parliament, Mr. F. Oliver, to the Department of Interior. In case of re-election we are ready for the fray.

THE GUM REMOVED

THE microscope shows each leaf of tobacco is covered with long soft hairs which exude a viscid juice.

This is called the gum, and it covers the surface with a moist glutinous exudation.

Tobacco, to be good, must have all this gum driven out.

In Manicagua I procure tobacco that has all this gum "sweated" by the natural heat of the climate.

Only the dry, well matured leaf remains—the leaf that when I age for three years will give a cool, fragrant smoke—odorless and aromatic—that's the characteristic odor of my Pharaoh.

THE CITY COUNCIL

HELD A SHORT SESSION.

The Isolated Hospital Question—New Chief of Police—Fire Brigade Equipment

Major Mackenzie presided at a short session of the city council, Mr. Bellamy, Mayor, Griesbach, Clark, McLeod and May being present.

The minutes of the preceding meeting were read and adopted.

PLAN FOR AN ELEVATOR.

Messrs. F. W. Hobson and J. Hestyn wrote the council outlining a proposal to put in a double passenger elevator on the hill at the junction of First street and College avenue. They requested a grant of \$500 for the enterprise and a franchise for 21 years, with exemption from taxation for the same term. The lifting capacity of the elevator would be 24,000 lbs. It would be run by steam.

The streets and parks committee were asked to go into the matter with the commissioners and report at next meeting.

A CASE OF DIPHTHERIA.

The Medical Health Officer reported that a case of diphtheria had been discovered among some new arrivals from New Brunswick. The family has been quarantined in tents.

THE ISOLATION HOSPITAL.

This brought up the question of an isolated hospital. Commissioner Kinnear reported that it had been found utterly impossible to do anything further regarding an arrangement with the city of the hospitals. The Medical Health Officer, in reply to a question, said a distance of 150 feet from other buildings was sufficient for an isolated hospital and that the site suggested on the water front would not endanger the city. He, however, favored making an arrangement if possible, with one of the hospitals.

The action of the commissioners was confirmed and they were asked to go over the proposed site and report.

The sanitary and relief committee were asked to report on an account presented by a local doctor for medicine used on poor patients.

The commissioners were asked to take up the matter of filling in an old cellar near the immigration hall, USE OF LETTER BOXES.

The commissioners had been keeping track of the letters posted in the new letter boxes for several days to find if these were used as much as expected. The results were as follows:

No. 1 266
No. 2 1023
No. 3 179
No. 4 188

Daily average 133.

FIRE BRIGADE EQUIPMENT.

The Fire, Market, and Civic Buildings committee recommended:

1. That a new city bell be procured and hung in a steel tower.
2. That a new chemical engine be procured, having two 16 gallon tanks.
3. That a second team be purchased to haul this engine.
4. That another driver be employed.
5. That a testing pump be installed.
6. That a lavatory and bath be put in the hall for use of the firemen.
7. That the old cells be torn out of the hall and remodelled for stable purposes.

The report was adopted, the engineer will submit estimates, and a money bylaw will be prepared.

FIRE BYLAW.
Ald. Clark said the fire bylaw was being infringed upon by the use of tin chimneys, and in other ways, and would a fire inspector.

The mayor said the commissioners were considering the appointment of a fire chief, who would also be fire and sanitary inspector.

A report from the commissioners recommending the purchase of certain necessary property to deflect Saskatchewan avenue and avoid the oft-discussed cutting, was laid over.

ENGAGED NEW CHIEF.

The commissioners reported having engaged Staff Sgt. Evans, of Calgary, as chief of police.

A petition was read from citizens protesting against the employment of an outside man in this capacity. The matter was laid over till Friday and the meeting adjourned.

GERMAN SOCIETY EDELWEISS EDMONTON.

Following the example of their English, French, Scotch, Welsh and Irish brethren the German residents of the city of Edmonton have now formed a national society under the name of German Society Edelweiss, Edmonton. At a well attended meeting held Monday night last the society was started with a membership of over thirty and the following officers were elected:—President, C. N. Scher; Vice-President, R. Matz; Secretary, John Kook; Treasurer, Frank Kramer; Financial Secretary, Arthur Kipke; Guard, J. Brandt.

Regular meetings will be held the first Monday of every month.

In connection with the society, which proposes to be the social centre of the German speaking population, a fund for sick benefit and relief.

VASTNESS OF CANADA

PICTURED BY EARL GREY.

The new Governor General delivers an optimistic address to a Toronto audience

Bulletin Special.

Toronto, April 25th.—Earl Grey has arrived in the city. In an address at the Toronto Club tonight the Governor-General among other things said:

"I have often travelled in the car of my imagination over your magnificent continent and it has long been my conviction after consideration of the potentialities of your country that there was no reason why before the end of the present century you should not excel the United States in every thing that goes to make a great and high souled nation. My first experience of the huge vastness of your territory was all brought home to me in a graphic manner. I had hardly arrived at the Federal Capital when I was asked to see the puck at a hockey match between Dawson City and Ottawa, and I reflected then that the town from which the challenging team had travelled was a great deal further away than any part of England in which I have lived. It is difficult for any one, even for a Canadian born to adequately appreciate the vastness of the Dominion and when one realizes a continuous rich belt of land thousands of miles wide from the Atlantic to the Pacific, no man, however bold an imagination he may have, can commence to set a limit on the horizon of your greatness. It is still more difficult to measure the prosperity which awaits you when you reflect that the laws of nature have decreed that the country which exists nearest the northern limit of production has been blessed with an inherent virtue, which enables it to produce the best fruits, the hardest cereals and the finest and most strenuous men. It is an established fact that Canadian grown apples nearest the limit of production are finer in quality, better in flavor and last longer than those grown south of the experiments made in Japan had proved conclusively that the hard wheat flour from Manitoba produces better bread than can be obtained from Oregon wheat. So you gentlemen of Canada, may be congratulated that you own a country which is destined one day to lift the prize from your southern neighbors. I mentioned Japan, and I would ask you to consider how the results of Japan's experiments with bread affect Canada. The question of importance for Canada is whether a diet composed of bread or rice is most nourishing. Japan has arrived at the conclusion that bread is a more vigor producing and health sustaining food than rice and orders have been given that sailors of the Japanese navy and soldiers shall in future be given the equivalent of half their rice rations in the shape of bread. We are on the eve of a growing demand for flour and wheat, which will grow to enormous dimensions at first from Japan and later on from the great continent of which Japan is only the porch."

—Funeral Lodge.—Salvatore Gattone an Italian just ten months from his native land was killed last Sunday at Coal Creek. —Blairmore Times: The miners working on the night shift in the Frank mine discovered a bad fire raging in the No. 12 roadway, about 1,000 feet back from the face, at four o'clock Monday morning. At once the alarm was given and the miners called out of the mine, while the officials of the company took steps to confine the fire to the section where it was discovered. Stoppage have been put in and some believe that the fire is now under control and will burn itself out without doing any great amount of damage to the property, while others claim that the mine will be greatly damaged in any event. The mine will be closed for a couple of weeks and until the company puts in a proper outlet for the use of the miners in case of an accident, it is doubtful if the men will return to work in that mine.

GOOD AGENTS FOR THE
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the **OLIVER** is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.
